

## Case Study

# AEM Upgrade for Major Australian Landmark

## BUSINESS SITUATION

Major Australian Landmark wanted to take advantage of new features in Adobe Experience Manager 6.5+ in the Adobe Cloud to make the user experience for SOH customers better to drive sales quickly at the iconic landmark location. Their existing website were using many customise components & dialogs which were no longer support supported in the new version which all required to be re-written to AEM commons version 4.X and dialogs moved to Coral 3 UI.

- **Issue with AEM 6.4 platform & upgrades to AEM 6.5**  
There are a number of issues with the AEM 6.4 which is managed by 2 developers and the business as usual team.
- **Better way to carry out testing**  
Landmark requires better structured methodology and potential automation of these tasks to make testingsimpler.
- **Performance Testing**  
Requirement to have better performance testing methods as there are issues with current performance testing scripts which sometimes do not work correctly.

## SOLUTION

Adactin worked with SOH to provided technical expertise and direction to the SOH by seamlessly integrating in with the existing development teams to quickly re-write and upgrade components and dialogues required for SOH to facilitate them to upgrade to Adobe Experience Manager 6.5+. Adactin also assist SOH by offering them better ways to carry out functional and performance testing to drive quality outcomes.

## BENEFITS

- Upgraded AEM 6.5 platform.
- Improved usability and features.
- Better quality code. This will make it easier to upgrade in the future.
- Quick turnaround and very little downtime.
- Better performance and reliability. This was extensively tested by the Adactin.

## TECHNOLOGY STACK

- AEM
- Java 8
- HTML
- CSS
- jQuery
- Git
- Bitbucket
- JIRA
